## Taking care of your Special Edition Wine

Of course, we understand that you are probably not going to want to drink it, so we would highly recommend storing the wine in a safe place. We are also producing regular size bottles for you to enjoy the wines.

Below are instructions on how to unbox your Jeroboam

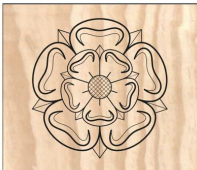

### 1. REMOVE THE OUTER BOX

Please remove the outer box by opening the fold at the top and lifting the wooden box by the rope.

### 2. TAKE GOOD CARE

The Jeroboam is 8kgs in weight so please take care whilst lifting it out of the box.

### 3. LIFT THE YORKSHIRE ROSE

Once removed, please lift the 'Yorkshire Rose' which is the retaining 'upper lip' of the box. Lift the bottle out and remove the white tissue paper from the Jeroboam.

### 4. SECURE BACK INTO PLACE

Place the Jeroboam back in its box and place the 'Yorkshire Rose' into position to retain the Jeroboam.
